Square

More Selections

Description	A roof mounted axial type solar powered active ventilation fan, driven by brushless DC motor and run for air exchanging, to improve air circulation in roof cavity or attic space freely at no energy cost
Specification	<p>25~60W monocrystalline solar panel</p> <p>21.6~24V brushless DC motor</p> <p>12" / 14" Nylon-fiberglass fan blades, 7 pcs</p> <p>Air duct dia. 315mm / 368mm</p> <p>Round / Square fan cover, square fan base</p> <p>Galvanized steel fan case with powder coating</p> <p>Color: black/ white / orange / green</p> <p>Fan host size: 530x530x255mm</p> <p>Air flow: 1340~2284CMH</p> <p>Work time: sunny day hours, when sunlight is available</p> <p>(battery / electricity backup is available for running nonstop in sunless time)</p> <p>Optional accessory: solar battery, AC/DC adapter, remote controller, manual switch, thermostat, fan guard</p>
Application	Residential House, Garage, Basement, Industrial Workshop, Livestock Feeding Shed, Poultry House, Agricultural Green House, Commercial Building, Modern Dome Tent...
Features	<ol style="list-style-type: none">1. Solar powered2. Wiring free3. Quiet operation4. Maintenance free

Solar Gable Wall Fan

Round

Square

Product Images

Description	A multi-purpose wall mounted axial type solar powered active extracting fan, driven by brushless DC motor and run for air exchanging, to improve air circulation freely at no cost
Specification	<p>40~60W monocrystalline solar panel</p> <p>24V brushless DC motor</p> <p>Color: black</p> <p>12" / 14" Nylon-fiberglass fan blades, 7pcs</p> <p>Air duct dia. 315mm / 368mm</p> <p>Galvanized steel fan case with powder coating</p> <p>With metal fan guard, 10m cable, and optional mounting frame</p> <p>Fan host size: dia. 315 / 368mm x175mm / 416x416mm</p> <p>Air flow: 2555~3406CMH</p> <p>Work time: sunny day hours, when sunlight is available (battery / electricity backup is available for running nonstop in sunless time)</p> <p>Optional accessory: solar battery , AC/DC adapter, remote controller, Thermostat...</p>
Application	Residential House, Garage, Basement, Industrial Workshop, Warehouse, Poultry House, Agricultural Greenhouse...
Features	<ol style="list-style-type: none">1. Solar panel powered2. Quiet operation3. Easy installation4. Maintenance free

Solar Industrial Wall Fan

More Selections

Description

A wall mounted axial type powerful solar energy exhaust fan, no belt but direct driven by brushless DC motor, running for air extracting and heat removing, to improve indoor ventilation in more cost-effective way

Specification

440W monocrystalline solar panel
36V IP68 brushless DC motor (PMSM)
Dia. 1110mm Aluminum-alloy fan blades
Fan host size: 1220x1220x350mm
Air Flow: 32000CMH
Galvanized steel fan case
With 15m cable to connect fan host & solar panel
Work time: sunny day hours, when sunlight is available
Optional AC/DC adapter to support fan run nonstop in sunless time, by using grid power

Application

Industrial Workshop, Factory Building, Livestock Feeding Shed, Agricultural Greenhouse, Poultry Farm...

Features

1. Solar panel powered
2. No belt direct drive, maintenance free
3. IP68 waterproof brushless motor, even rated for humid environment
4. Low voltage operation for better safety
5. Energy saving & long lasting

Solar HVLS Ceiling Fan

Description A HVLS (high volume low speed) solar DC powered big ceiling fan, direct driven by brushless dc motor, as a new revolutionary cost-effective solution for cooling, moisture proofing or ventilation

Specification 440W monocrystalline solar panel
36V IP68 brushless DC motor (PMSM)
dia.3m Aluminum-alloy fan blades, 8 blades, of 32" fan booms
With 36V*8.9A AC/DC adapter
to use mains supply as backup in sunless time
include Remote Controller to turn On / Off & Forward / Reverse the fan
5 variable speeds, 2 rotating modes;
With 20m cable to connect fan host & solar panel
Work time: day & night time

Application Industrial Workshop, Factory Building, Warehouse, Gymnasium, Church, Office Building, Library, big Mall, Canteens and Restaurants...

Features

1. Solar panel powered
2. Gearless motor direct drive, maintenance free
3. IP68 waterproof brushless motor, even rated for humid environment
4. Low voltage operation for better safety
5. Energy saving & long lasting

Solar Ceiling Fan

More Selection

Description

A green solar powered ceiling cool fan with led light, providing natural cool soft wind freely in sunny daytime, while smartly switching to backup power in sunless time, allowing savings of up to 90%

Specification

60W monocrystalline solar panel
27V brushless DC motor
Color: white / black
42" / 60" ABS fan blades, 3 blades, 6" fan boom
Include 10W LED light & Remote controller
Adjustable 5 speeds (60~300RPM)
With forward & reverse running modes, timing function
With 15m cable to connect fan host & solar panel
Backup power: 50W solar battery / electricity backup by power adapter
Work time: day & night cooling

Application

Dinning room, living room, courtyard, garage, basement, factory, warehouse, canteen, supermarket, coffee shop, office, meeting room...

Features

1. Solar panel powered
2. Practical for both cooling & lighting
3. Easy quick installation
4. Energy saving & long lasting

Solar LED Skylight

Flush-mounted

Surface-mounted

More Selections

Description A brand new shaft-less solar LED skylight, making up for poor natural daylighting with no structural changes, as a new alternative of conventional tubular skylights by much easier installation job

Specification

- 30~60W polycrystalline solar panel
- 18V round / rectangle LED panel
- Light size: dia.300x12mm / 300x300x12mm / 300x600x15mm / 600x600x15mm / 300x1200x15mm
- Installation: ceiling mounted
- Color: white
- Light source: SMD2835 LED chips
- IP Rating: IP44
- Color Temperature: 5000K
- Operating Temperature: -20°C to +40°C
- LED Lifespan: 50,000 hours
- Work time: sunny day hours, when sunlight is available
(battery / electricity backup is available for day & night lighting)
- Switch type: automatic lighting, radar sensor, remote controller

Application Hallway, Corridor, Entrance, Bathroom, Kitchen, Dinning Room, Washing room, Living room, Basement, Staircase, Lounge, Gazebo...

Features

1. Solar panel powered
2. DIY easy installation
3. Smart sensor lighting
4. Low maintenance

Solar Louvered Exhaust Fan

Product Images

Description	A wall mounted axial type solar powered louvered exhaust fan, driven by brushless motor and run for air exchanging, to improve indoor ventilation freely at no cost
Specification	<p>40W monocrystalline solar panel</p> <p>24V brushless DC motor</p> <p>Color: white</p> <p>810" / 12" ABS plastic fan blades</p> <p>ABS plastic front louver</p> <p>Galvanized steel with anti-corrosive coating rear shutter</p> <p>With 10m cable to connect fan host & solar panel</p> <p>Work time: sunny day hours, when sunlight is available</p> <p>(battery / electricity backup is available for running nonstop in sunless time)</p> <p>Optional accessory: Solar battery, AC/DC adapter, remote controller, manual switch, thermostat</p>
Application	Residential house, washing room, living room, kitchen, bedroom, basement, garage, office, hotel, restaurant...
Features	<ol style="list-style-type: none">1. Solar panel powered2. Quiet operation3. Energy saving4. Easy installation

Solar Ceiling Ventilator

Product Images

Description A ceiling mounted centrifugal solar powered ventilation fan, driven by brushless motor and run for air exchanging, to improve indoor air circulation freely at no cost

Specification

- 40W monocrystalline solar panel
- 24V brushless DC motor
- Color: white
- Dia. 140mm plastic centrifugal fan blade
- 4 inch air outlet (size: diameter 100mm)
- 12 inch ABS mesh grille (size: 290x290mm)
- Galvanized steel fan body (installation size: 230x230x135mm)
- With 12m cable to connect fan host & solar panel
- Work time: sunny day hours, when sunlight is available
- (battery / electricity backup is available for running throughout 24h)

Application Residential house, living room, washing room, kitchen, bedroom, office, hotel, restaurant...

Features

1. Solar panel powered
2. Energy saving
3. Quiet operation
4. Easy installation

Solar Centrifugal Blower Fan

Product Images

Description	A split type wall or ceiling mounting centrifugal solar powered ventilation fan, driven by brushless motor and run for air exchanging, to improve indoor air circulation through inline ducts freely at no cost
Specification	60W monocrystalline solar panel 24V brushless DC motor Color: Silver grey Metal centrifugal fan blades 6" / 8" (dia.150mm / 200mm) double air outlets Galvanized steel fan case with powder coating With 15m cable to connect fan blower & solar panel Work time: sunny day hours, when sunlight is available (battery / electricity backup is available for running nonstop throughout 24h) Optional accessory: AC/DC adapter, remote controller, manual switch, thermostat, air ducts, branch pipe...
Application	Residential house, washing room, living room, kitchen, bedroom, basement, garage, office, supermarket, hotel, restaurant...
Features	1. Solar panel powered 2. Quiet operation 3. Energy saving 4. Easy flexible installation
